Education

Centurion University Of Technology And Management

Bachelor of Science in Computer Science **CGPA:8.9**

November. 2021 – May 2025

Vizianagaram, AndhraPradesh

Tirumala junior college

Board of intermediate education **CGPA:9.0**

June. 2019 – May 2021

Rajamundry, AndhraPradesh

Sri Sadguru Vidyalayam

Board of Secondary education **CGPA:9.3**

June. 2018 – May 2019

Rajamundry, AndhraPradesh

Technical Skills

Languages: Java, JavaScript, SQL, PHP, Python

Miscellaneous: Data Structure And Algorithms

Web Development: HTML/CSS, JavaScript framework (React.js) JavaScript

Database Management: MySQL, NoSQL (MongoDB)

Developer Tools: VS Code, Eclipse

Experience

Techno Hacks

September 2023 – October 2023

web development Intern

Hyderabad, Telangana

On the intern I developed web applications -

- Designed and developed a robust E-commerce Web Application for selling customized computer parts, utilizing a suite of web application tools.
- Employed Java and associated frameworks for backend development, ensuring scalability and performance.
- Utilized modern web development tools and technologies for frontend design and user experience enhancement, resulting in a seamless shopping experience for customers.

Projects

E-commerce Web Application | HTML, CSS, JAVASCRIPT, PHP, SQL

June 2022

- Designed and implemented intuitive user interfaces with HTML, CSS, and JavaScript, ensuring a seamless shopping experience for customers.
- Leveraged PHP for backend logic and SQL for database management, facilitating secure user authentication, product management, and transaction processing. Collaborated with cross-functional teams to gather requirements, design architecture, and deliver a scalable solution that met business objectives.

[Checkout-here](#)

ATM Simulator | Java, SQL, Applet

May 2023

- Implemented robust backend functionalities using Java and SQL for data management, ensuring secure and efficient transaction processing.
- Designed intuitive user interfaces using Java Applet, providing a realistic simulation of ATM operations and enhancing user experience. Collaborated with stakeholders to gather requirements and deliver a user-friendly solution tailored to banking needs.

Tribal Medicine Database | Full Stack Web Development Project

Jan 2024

- Developed a comprehensive web application for managing a tribal medicine database with distinct functionalities and user interfaces for different roles.
- Featuring user interfaces for accessing/searching the database, publishers for data management, and admins for reviewing and verifying data.

Achievements

- Achieved 5 Star in Hacker rank Practice.
- Completed JAVA course in CodeTantra and CodeChef.
- Applied advanced skills in Adobe Photoshop, Illustrator, and other design software to create visually appealing graphics, illustrations, and layouts.
- Participated in conducting the Debugging contest.
- Participated in University Hackthons.
